## Stainless Steel World Asia 2022 Conference

Stainless Steel World Asia 2022 conference will feature keynote addresses, technical paper sessions and interactive panel discussions. The conference will have a strong focus on issues and applications of relevance to the Southeast Asia region. International experts have been invited to present on specially selected topics.

## Call for Papers

Stainless Steel World Asia welcomes manufacturers, end-users, suppliers and researchers in an open and focused forum.

The conference is ideal to profile your expertise, network with industry peers, and share your knowledge with the materials community.

**Submit a paper:** If you would like to give a technical presentation, please submit a 300-500 word abstract for consideration by the Steering Committee by 21 March 2022.

**Send your abstract to:** [j.mcintyre@kci-world.com](mailto:j.mcintyre@kci-world.com)

## Conference topics include:

- Optimising material and process selection,
- Stainless steel solutions for high-temperatures
- Duplex stainless steels, opportunities & limitations
- Welding stainless steels,
- Stainless steel applications in subsea developments

**Submit your abstract by 21 March to:**  
[j.mcintyre@kci-world.com](mailto:j.mcintyre@kci-world.com)

## Keynote addresses

- **Stainless steel for a sustainable world:** how lifecycle cost analysis reveals market opportunities for stainless steels in applications presently dominated by other materials.
- **Architecture, building & construction:** a wealth of opportunity for stainless steels.
- **Artificial intelligence and digitalisation,** including predictive analysis of failures and the evolution of certifications.
- **Additive manufacturing of stainless steels,** including powder metallurgy, certification/approvals, spare part centres & rapid production of spare parts.

## Panel discussion/Q&A

Interactive Q&A with regional stainless steel associations and key end-users. Looking at market opportunities for stainless steel in the Southeast Asian market including emerging applications, growing markets, supply chain developments, etc. Moderated by Juerg Schweizer, Nickel Institute.
