Join the conference – submission details

Tailored to the needs of the Southeast Asian materials community, the combination of a technical conference and international exhibition is perfect for business, networking and learning.

Technical conference

At the heart of Stainless Steel World Asia is a technical conference covering a wide range of issues related to the manufacture, specification and use of stainless steel. Compiled by a Steering Committee of materials and industry experts, the program features speakers who are selected for their ability to share knowledge and experience in world-class presentations.

Key Conference Topics

Your presentation could explore (but is not limited to):

- Applications & case studies
- Architecture, Building & Construction
- Chemical / Petrochemical Industries
- Digitalisation & Smart Technologies
- Duplex Stainless Steel
- Energy Transition & Renewables
- Material Selection
- Offshore & Subsea
- Oil & Gas
- Welding & Additive Manufacturing

What the Committee Looks For

Our International Steering Committee will review all abstracts based on:

- Originality and quality of content
- Innovation, relevance, and topicality
- Practical focus on real-world challenges and solutions
- Strong technical insights (non-commercial)

Submit Your Abstract

Be part of the conversation at Stainless Steel World Asia 2026.

Submit your 300–400 word abstract online before 1 March 2026.

Let your technical expertise inspire change and advance the world of stainless steel.

Become A Speaker

<https://stainless-steel-world-asia.com/become-a-speaker/>

DEADLINE:
1 March 2026

International Steering Committee

The Stainless Steel World Asia Steering Committee draws upon their extensive industry knowledge, field-specific expertise, and valuable insights to develop a topical, forward-looking, and industry-relevant conference programme.

Members:

Goh Gim Choon

Manager, Integrity & Corrosion, Downstream Manufacturing, Pulau Bukom Manufacturing Site
Aster Chemical and Energy Pte Ltd.

Harriet Chua

Technical Marketing Engineer
Alleima South East Asia

P R Krishnan

Manager, Inspection & Integrity
PCS Pte. Ltd. (formerly known as Petrochemical Corporation of Singapore)

Terence Low

General Manager (Purchasing)
HH Stainless

Nurul Asni Mohamed

Custodian Engineer (Corrosion)
Petronas

Juerg Schweizer

Manager, Market Development – South East Asia
Nickel Institute

Suprit Pal Singh

CEO
Enernol Bioindustry Ltd

Suryani Suryani

Chief Innovation Process & Facility
PT Pertamina Hulu Energi

Masaki Ueyama

Chief Manager, Energy Tubular Products
Technical Service & Solution Section
Nippon Steel

Chen Ze

Consultant, DNV Global Additive Manufacturing Centre of Excellence & Research at
Nanyang Technological University
DNV, Nanyang Technological University

Steven Sutindo

Director
PT Sutindo Raya Mulia

Nakkeran Thirunavakkarasu

Lead Quality Engineer
MODEC

Kazuki Furuya

Manager, Export Sales Section
Maruichi Stainless Tube

Jack Shen

Sales Director
Dewei

For information about speaking at the conference, please contact:

Mrs Joanne McIntyre
